For each equation fill in the table and then sketch a graph.

X	Y
-1	
0	
1	
2	

$y=2x-3$

For each equation fill in the table and then sketch a graph.

X	Y
-1	
0	
1	
2	

$y = -3x + 5$

Plot the two points and then find the slope of the line that would go through them.

(-1, 2) (2, 8)
