

August 19, 2015

Dear Future Tutor,

Congratulations on your achievements in mathematics. Your teacher has selected you as a student who is hard-working, responsible, and has a good understanding of the math concepts you've been taught. We would like to invite you to apply to be a Math Peer Tutor for the 2014-2015 school year.

In past years the math department has had students volunteer as tutors during CAVETIME and we have found it to be very helpful. This coming year we would like to carry on this program but, hopefully, in a way that will be even more beneficial to teachers and students. If you apply and are selected to be a math peer tutor you would be providing much needed service and assistance to the teachers and other students. We would like for you to be consistent and dependable in your efforts. This consistency will be more beneficial to both you as a tutor and the students because there will be more time to work together, build a relationship, and develop math skills.

Tutoring can be very rewarding and we hope you will consider taking advantage of this opportunity. This kind of service looks really good on college applications and there is such a great need for good students like you. Math classes are often filled with struggling students during CAVETIME and the math teachers could really use your help. We also plan on having incentives, and rewards for our tutors.

Please fill out the attached application and turn it in to Mr. Lemon by Friday, September 5th.

Sincerely,

AFJH Math Department

Math Peer Tutor Application

Name _____ Grade 8 9

Email Address _____

Math Teacher (current year) _____ Class (Sec. I-H, Intern. II, etc.) _____

Grades in math last year Term 1 _____ Term 2 _____ Term 3 _____ Term 4 _____
