## Geometric Meanies <br> A Solidify and Practice Task

Each of the tables below represents a geometric sequence. Find the missing terms in the sequence, showing your method.

Table 1

| $x$ | 1 | 2 | 3 |
| :---: | :---: | :---: | :---: |
| $y$ | 3 |  | 12 |

Is the missing term that you identified the only answer? Why or why not?

Table 2

| $x$ | 1 | 2 | 3 | 4 |
| :---: | :---: | :---: | :---: | :---: |
| $y$ | 7 |  |  | 875 |

Are the missing terms that you identified the only answers? Why or why not?

## Table 3

| $x$ | 1 | 2 | 3 | 4 | 5 |
| :---: | :---: | :---: | :---: | :---: | :---: |
| $y$ | 6 |  |  |  | 96 |

Are the missing terms that you identified the only answers? Why or why not?

In partnership with the Utah State Office of Education

Table 4

| $x$ | 1 | 2 | 3 | 4 | 5 | 6 |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $y$ | 4 |  |  |  |  | 972 |

Are the missing terms that you identified the only answers? Why or why not?
A. Describe your method for finding the geometric means.
B. How can you tell if there will be more than one solution for the geometric means?
