

### Warm Up

A	Number of Apples in a basket
O	Number of Oranges in a basket
B	Number of Bananas in a basket
N	Number of Baskets total

1. Each basket has the same number of bananas, how many total bananas does Sally need to buy?
2. Write an equation for the total number of total pieces of fruit in each basket.
3. Sally knows she will need 36 pieces of fruit for 3 baskets. If there is an equal amount of apples, bananas, and oranges in each basket, how many apples are in each basket? Bananas? Oranges?
